

C

Towable trailer or
10 foot container

F

FLOW RATE
Up to 70l/min

P

POWER
230V 10A

MODEL WPMOB70

SPECIFICATION

CONTAINER:

ISO Classed 10 foot sea container or towable trailer

NUMBER OF LINES:

2 lines with 6 filter houses in each line

TUBING AND VALVES:

40 x 3,7 Clamped PEM Tube design

FILTER HOUSING:

30 inch grade A Stainless steel housing

20 inch grade A Stainless steel housing

FILTER TYPES:

Electro spun Nano-fibre

Nano-fibre membranes

Plasma treated steel mesh

Active carbon

Polypropylene filters

FILTER SIZES:

From 5 mu to 0,22 mu

MONITORING (optional):

Clearwells water purification systems can be pre installed with a digital monitoring system. Enabling 24/7 surveillance. Different sensors can be added to the system to monitor turbidity, flow and levels of contaminants.

PUMPS:

Grundfoss pumps

POWER INLET:

230V 10A 1 phase

ADD-ONS:

Different pre-treatment systems

Granulates

Sandfiltres

Oil separation

Holding tanks

Sedimentation and Flocculation
